Dear Parents,

GCSE and 'A' Level results 2024

We are pleased to publish our GCSE and A Level results 2024.

Enclosed are the official grades that our pupils were awarded by the examination boards AQA and Edexcel this year.

Amongst other data you will find the following:

Page 3 - 4 : GCSE Results converted into **traditional alphabetical grades**

Page 5 - 6 : GCSE Results in **Numbers (9-1)**

Page 7: The Telegraph Best UK private Schools by G.C.S.E. results 2024

Page 29 : **Forecast for the Future**

Page 30 - 33 : Lamda Results Prep and Senior School 2024

We are extremely proud of this year's 'A' Level and G.C.S.E. results. Most pleasing, however, were the university destinations of our 'A' Level students, which in our opinion is the best measure of a school and our ranking in the Telegraph's Top 100 Best Private Schools by 'A' Level and G.C.S.E. results. 2024 was a successful year, which we can look back upon proudly.

We hope that on reading through our Results' Booklet, you will feel assured that the school motto: Res Ipsa Loquitur – "The Thing Speaks for Itself" remains true.

We will be posting our results booklet onto our website and as we receive further data we will make the necessary additions, which can be viewed by parents at any time. One such example is our ALPS score, which we hope to receive over the Christmas break. This gives a subject by subject comparison of our students' grades compared with all other schools in England. In addition, we are still awaiting confirmation from some students as to which university they ultimately chose where multiple offers were made. Further, we await the outcome of a few appeals the school made on behalf of particular students, which will also be added to the results tables online.

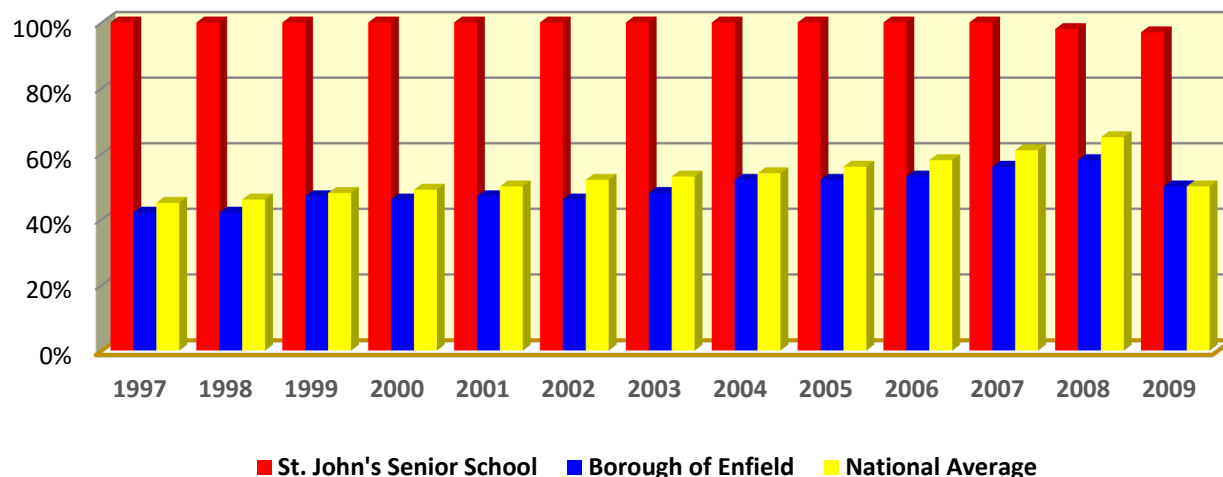

Yours faithfully,

A. Tardios

In 2008 the Department of Education introduced a requirement that the minimum five G.C.S.E.s should include English and Mathematics and that this information should be shown in the statistics. This is shown in the table below up to 2022. It appears that all available data published from 2023 onwards focuses on how many pupils achieved a grade 5 or higher in both English & Maths. Our 2023 data reflects this change.

You will see from the table above that there are some truly impressive academic accomplishments. Chief among them is:

Cherie Hall (No.19). Cherie's name will be placed on the school's **Honours Board for Academic Excellence, 2024.**

Well done to everyone concerned! Teachers, pupils and parents!

Note: Candidates highlighted in **yellow** have taken exams one year early.

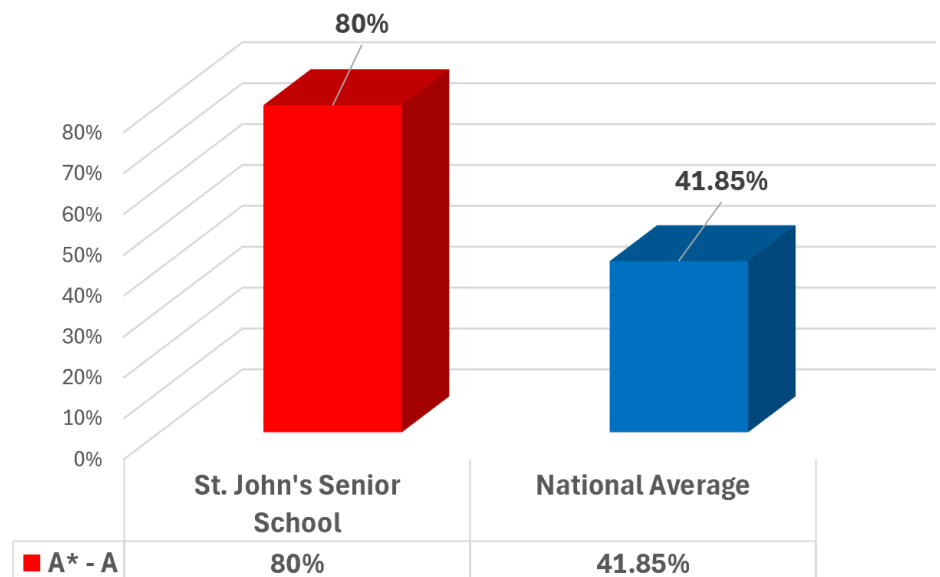

Maths was this year's star subject!

24 Students scored A* - A out of 30 students meaning 80% of our Maths results were A* - A grades.

In addition to the above grades, Further Maths contributed another 11 A* - A grades which have not been included in the 80% A* - A tally.

It is the consistency from G.C.S.E Maths to A Level Maths that is most pleasing. 74% of G.C.S.E. Maths grades were A* - A this year.

Forecast for the future.

We anticipate that St. John's proud tradition of sending our students to Russell Group Universities will continue and likely increase given universities plans to scrap state school targets.

Gap between private and state school pupils going to top universities widens

A social mobility expert has called the latest higher education participation figures a 'national scandal'.

A SOCIAL MOBILITY EXPERT HAS CALLED THE LATEST HIGHER EDUCATION PARTICIPATION FIGURES A 'NATIONAL SCANDAL' (PA)

University of Cambridge to scrap its state school targets

Private school pupils in [England](#) are almost twice as likely as their state school peers to go to a more selective university, [Government](#) figures show.

The gap between pupils in private and state schools progressing to a “high tariff” institution – universities with higher entry requirements – has widened, according to the latest [Department for Education](#) (DfE) data.

A social mobility expert called the figures a “national scandal” and warned that the idea that anyone can study for a degree is becoming “a distant dream”.

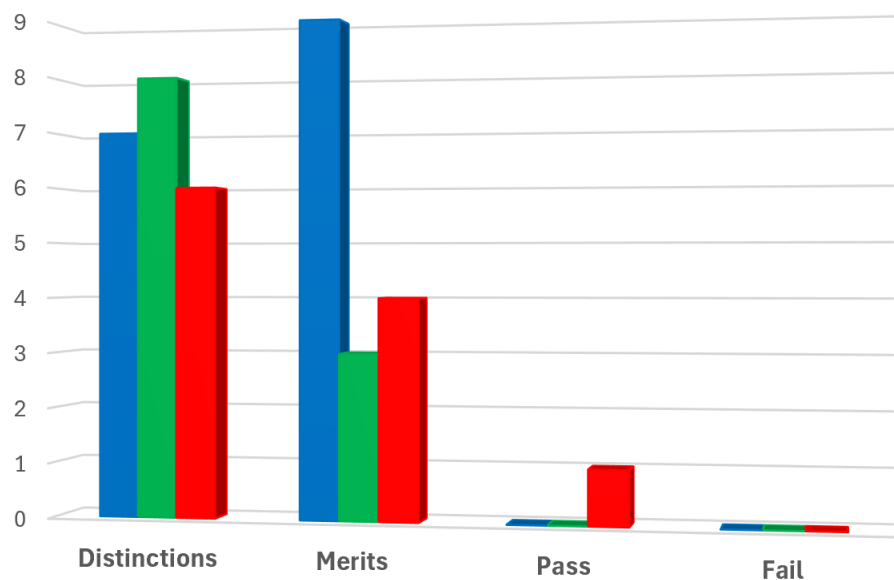

The figures show **private school** A-level pupils had a **67.8%** progression rate to a more selective university by the age of 19 compared to their peers in **state schools** who had a **34.2%** progression rate.

The gap between independent and state school pupils in England – 33.6 percentage points – is the widest it has been since 2017/18.
